The  
Head of Department  
Computer Science & Engineering  
Ahsanullah University of Science & Technology  
Love Road, Dhaka

Subject: Looking for your kind permission to arrange a seminar and registration booth at your campus.

Respected Sir,  
Greetings from the ICT Olympiad Bangladesh (ICTOB)!

We are delighted to notify you that the ICT Olympiad Bangladesh (ICTOB) organizing committee is organizing the country's first-ever national ICT Olympiad Bangladesh (ICTOB) with the theme "Road to New Revolution" to prepare our children and young to take the lead in Global IT activities.

We think that in this Fourth Industrial Revolution era, students must be groomed as excellent global citizens and leaders, with ICT skills playing a critical role. We want to contact 5,000 more schools, colleges, and universities across Bangladesh's divisions and districts. We sought out many schools, colleges, and universities around Bangladesh and obtained a significant response. We expect 5,00,000 students to apply, with a large proportion being accepted. We've already visited eight divisions and several districts in Bangladesh. We hope this event will be the most memorable in bringing together children, parents, instructors, and industry professionals under one roof; as a result, your organization will be able to act as a platform for creating open and diverse opportunities.

In this remarkable journey, we would be privileged to get your kind permission to arrange a seminar and two-day booth installation at your campus to raise awareness among students concerning ICT skill sets and the registration process on the 24th of August, 2022 or any other date as per your convenience.

We look forward to seeing your institution at the ICT Olympiad Bangladesh (ICTOB)!

Yours sincerely,

Ashrafur Insan Evan  
Member of Governing Body  
ICT Olympiad Bangladesh.
